EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 9, and 17 are allowable because the prior art of record does not disclose or reasonably suggest a row aggregator to improve a compression ratio via row-wise clustering. Applicants' Specification discloses a row aggregator that tries to further improve a compression ratio through row-wise clustering using a fascicle-based algorithm to compress the predictor attributes while insuring that errors in the predictor attribute are not propagated in a way that causes error tolerances to be exceeded. The prior art of record does not disclose or reasonably suggest the feature of a row aggregator to improve a compression ratio via row-wise clustering.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
